

SWS Pacific Zen desalinator

"Water, water everywhere, Nor any drop to drink." Ancient Mariner or weekend sailor – no-one likes to run out of water. Whether you're adrift in the Southern Ocean or over-nighting on Pittwater, a Schenker Water Maker desalinator is an elegant solution to water woes. Surprisingly affordable, the new, award-winning Zen range features stylish Italian design and engineering. These compact, lightweight units are highly energy efficient and come in 30, 50, or 100 litres per hour units producing fresh drinking water. Schenker Water Makers are simple to operate and maintain, with automatic controls. Australian based sales, service and support, along with units are available through SWS Pacific.
